ANRI RRUMBULLAKU

Data Analyst | MSc Data Science and Society

@ anri_rrumbullaku@hotmail.com | Rotterdam, Netherlands | +31 626163057 | LinkedIn | GitHub | Portfolio

Professional Summary

MSc Data Science and Society graduate with a multidisciplinary background in business management and data analytics. Experienced in applying analytical thinking and data-driven methods to understand business challenges and develop practical solutions. Skilled in Python, SQL, machine learning, and data visualization, with the ability to analyse complex datasets and translate findings into clear, actionable insights. Strong interest in business analysis, data governance, and decision support, particularly in using data to improve processes and support strategic decision-making. Motivated by collaborating with stakeholders, bridging the gap between technical and business teams, and turning business questions into actionable insights.
